My dear Sir,

I hope that by this time you have paid into Court the award made as compensation for acquisition of Survey No.101 on the north of the Maternity at Bangalore and known as Vyajendra Rao's land, and taken possession of the land.

2. As His Highness has sanctioned the grant to Y.M.C.A., it is necessary to give effect to it soon the more especially as the Y.M.C.A. are pressing for it and are in urgent need of it.

3. The land measures 5 acres 39 guntas, or say 6 acres. I write this to request that you will be good enough in concert with Mr. Krumbiegel mark off the plot of ground to be given to Y.M C.A. They said that they would require 4 acres of land for their buildings and play ground. This area (a little more or less with regard to the local configuration of ground) may be so marked off as to leave a belt of road way between it and the Maternity and so as not to interfere with but to suit Mr. Krumbiegel's contemplated improvements. The remaining land between this plot so marked off and the Revenue Survey Offices will be required for buildings in connect

with the High School close by.

4. Kindly get a Mozinidar to sub-divide No.101 as above and send me the Phod sketch as soon as possible.

Dear Mr Mathews,

With reference to the extra strip of land required by the Y. M. C. A. I am of opinion that their request may be complied with without any prejudice to the adjacent site.

The 50' extension on the lower ground is necessary for filling in the Football ground and the extra 20' on the upper ground is desirable in order to avoi the otherwise cramped appearance from the main road - as also the bad appearance of the fence where it woul form the two corners A & B.

The original Government order requires at all - events a slight correction in the measurements given according to which therein would take the ground to be handed over would extend slightly beyond the alignment of the proposed Park Road.

Dear Mr. Matthan,

I am returning the plans of the land given to the Y.M.C.A. and have marked on the original tracing the correct figures - of the plot now in their possession as well as the extra strip wanted by them.

You will see from our tracing that if the northern Boundary B C. was drawn out to the full length of the original figures it -- would go 20 feet beyond the stone actually fixed on the ground at C and the east boundary C.D. would also have to be moved - out at that corner and so come out of alignment with our propo sed Road which is to run parallel to that Boundary.

We, of course, adhere to the points as actually fixed on - the ground and we correct the measurements given in the Govern ment Order and shown in the plan which measurements were taken incorrect by the Surveyor, no doubt, owing to the thick jungle intervening at that time.

Now regards the extra land wanted along the northern bound ary I have already said in my previous letter that I fully --- agree to this extension as it is not likely to interfere with - our arrangements on that side while for the efficient laying - out of the Y.M.C.A. play-grounds it is a real need and that it should be given as shown in their plan No.2. attached.

The corrected measurements of para 2 of the original Goverr ment order and plan are thus

B.C. = 286" instead 306
C.D. = 395 397.

The new measurements, if the extra land now asked for is - granted, will read:

" and measures 320 feet on the west, 647 feet on the north, 445"

445 feet on the east and 515 feet on the south"

Yours sincerely

Submitted to His Highness

I submit herewith a letter from Mr A C Harte, National Secretary for India of the Y M C A expressing thanks for the photograph of His Highness and for the permission given to use it in connection with the announcement of the generous gift of a site for the City Branch of the Y M C A in Bangalore, and also stating that, on going through the plans of the building to be erected in the site granted and for laying out of the site it is found that if an addition of 50 feet could be made in the rear side of the site it would be possible to have an ideal athletic ground The letter is accompanied by one from the Rev J Mathers, Secretary to the Y M C A in Bangalore, explaining what is exactly required, and enclosing plans It is seen that the addition required is 50 feet in the low ground at the back, and 20 feet at the back of the tennis courts as indicated in the plans

2 Mr Krumbiegel having been consulted in the matter has expressed the opinion that the addition of land asked for is really required by the Y M C A may be given without interfering with his plans

proposal is that a strip of additional land may be given on the north side of the site already granted, 20 feet wide on the higher land nearest the Maternity Road and 50 feet wide on the low lying land in the rear. Mr.Krumbiegel also says that in any case the measurements given in the original Government Order (which were based on measurements taken by the District Surveyor's) have to be corrected. The measurements as given in the Government Order, as corrected and as proposed to be now revised if the additional land asked for is given are shown below -

	As per Govt. Order.	As corrected.	If additional land asked for is given as recommended by Mr. Krumbiegel.
Western boundary	300'	300'	320'
Northern -do-	647'	627'	637'
Eastern -do-	397'	395'	445'
Southern -do-	515'	515'	515'

3. I recommend that the addition asked for by the Y.M.C.A. may be sanctioned, i.e. 50 feet extra in the low lying ground, and 20 feet extra just behind the tennis courts. Mr. Krumbiegel proposes something more with a view to rounding of corners (i.e. he would extend the 20 feet strip up to the road in front), but it is doubtful whether this is really necessary and it can at any rate lie over for future action - the more especially as the Y.M.C.A. has not asked for it.

Deputy Commissioner's Office,
Bangalore, 11th November 1911

Dear Sir,

As desired in your D.O letter No.2857 dated the 28th September 1911, calling for certain information relating to the boundary of the plot of ground granted to the City Branch of the Y M C A Bangalore, I beg to submit herewith, together with 3 plans, the file of papers on the subject containing the required information as furnished by the Vice President.

A fresh plan prepared by the District Surveyor (enclosed in the file) shows the land originally granted to the Y M C A , and the additional plot proposed to be given to them now, as also the distances between the several points The additional plot of land measures 14 guntas and 13 sq yards in extent, the land originally sanctioned measuring 4 acres 33 guntas or 5 acres, 7 guntas and 13 sq yards in all In this connection, I beg to

road leading from Cenotaph to the Revenue Survey Offices and to the north of the Maternity Hospital, but separated from the Hospital by a slip of -- vacant land about 66 feet in width. The boun - daries of the said land which is comprised of survey Nos.7, 8, 9, 10, 14, 15 and 16 of the Sampigehalli village are indicated by the letters L M N O P Q R S L in the accompanying plan It measures on the North 688 feet i e 286 feet from point L to M, 20 feet from M to N, 86 feet from N to O, 26 feet from O to P, 270 feet from P to Q, on the East 447 feet, on the South 515 feet and on the West 300 -- feet

It will be seen from the plan that the extent of 50 feet of land newly allotted does not extend right up to the western boundary of survey No 14, but some vacant space is left between them On the other hand the extent of 20 feet of land towards the North-east corner of survey No 16 extends from point N straight up to ~~the~~ point O (Vide new plan prepared by the District Surveyor) so as to cut

In connection with S. O 6494 7 / Rl 156-08 15 dated 9th March 1912, about the grant of additional site to the Y M C A, Rev r Mathers pointed out to me this day that the measurement from N to O was 86 ft and not 66 ft as stated in para 2 of the order and requested that the error might be rectified. — According to the sketch the measurement is 86 ft (61 + 25) The total length on the northern side will be 688 ft only if the distance from N to O is taken as 86 ft. The error may be rectified

Dear Mr. Ananda Rao,

The enclosed letter has come to me for transmission to you. It refers to our need of a small extension of the land granted to us for athletic purposes, in order that our plans may include a model athletic ground.

The space required at the back of the Tennis-courts is not 50 ft., but 20 ft. We need this in order to have room for two paths leading from the Building down to the Athletic field.

I enclose a plan of the ground as we propose to plot it out. The needed portion is marked out in red ink. The dotted line shows Mr. Krumbiegel's suggestion. The second plan shows how we plot if the enlargement is granted.

Mr. Krumbiegel was with us on the site a few days ago discussing with us the laying out of the grounds. We mentioned to him our difficulty, and his suggestion was that so far as the plans were concerned it would be best for us to have an extension of a strip of 20 ft. broad from the road to a point marking a 5 0 ft., extension of the football ground and then [illegible] reduced in a line with the football ground to the limit as is shown in the plan by a dotted red line. I trust these

plans will make our needs clear to you. If you should like to talk it further over with me I shall be very pleased to wait on you at your convenience.

We are very reluctant to approach you on this matter for we feel that you have already been very generous to us . It is only the fact that we are so near to a model plan that we are emboldened to ask for this small addition to our land, knowing as we do that you take so much interest in the work we have set before us.

We were all very sorry to hear of your indisposition, and trust that ere this you have been completely restored to health.

I remain,

very sincerely yours,

My dear Mr. Ananda Rao,

I was indeed sorry you were ill, when recently I was in Bangalore. I was sorry not only on your account, but also on my own, as it prevented my having the pleasure of an interview with you with reference to our work and to the educational and social problems of the day. I trust by this time you are again thoroughly fit.

May I through you express my thanks to His Highness the Maharajah for the photograph of himself, which he has so kindly given me, and for permission to use the photograph in America and Europe in connection with the announcement of his generous gift of a site to the Fort Branch of our Association in Bangalore.

I had the pleasure, recently in Bangalore in company with Mr. Mathers and our architect, Mr. Schaetti, of inspecting the site so generously given us. It is indeed a fine place and well situated with reference to the work we are planning to do. At first it seemed even larger than would be necessary in order to the having of a complete plant, including the building, secretary's residence, tennis courts, play field, etc. It was only when we carefully laid out
